

Isover Range Charter

Isover has built its reputation on high-performance thermal and acoustic insulation solutions that are both effective and accessible. Our products are designed with the needs of our climate and communities in mind and built to last. Meeting local needs means creating comfort today while safeguarding resources for generations to come. At Isover, we're lowering environmental impact through energy-efficient products that deliver long-term value without the added cost.

We're making it easy to build better. We're proud to announce that:

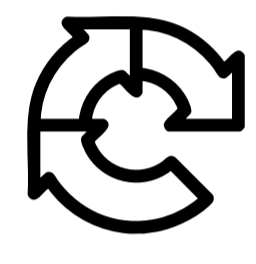

Isover is now part of the futuRE Range:

A carefully curated range of locally manufactured, best-in-class products that adheres to strict sustainability, health, and wellbeing criteria.

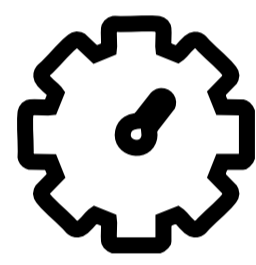

For a product to form part of this range, it must adhere to the following criteria:

1. Each product must have an externally verified EPD.
2. The product must be locally manufactured.
3. The product must be manufactured in an ISO certified facility.
4. The product must contribute positively to at least one of the following criteria:

Better for the planet:

Better Resource Circularity.

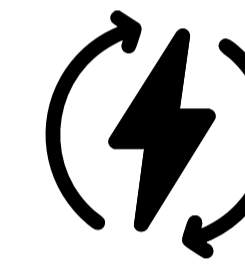

Better Energy and Carbon Efficiency.

Better for people:

Better Health and Safety on Jobsites.

Better Health and Wellbeing Indoors.

How has Isover adhered to these Criteria?

Each product must have a third-party verified EPD.

The product must be locally manufactured.

Energy and Carbon:

Increased energy efficiency

Positively contribute to buildings' energy efficiency and performance

Complies with SANS 10400-XA requirements

Reduced embodied carbon emissions

A carbon reduction as compared to the previous version/alternative offer.

Health and Safety on Jobsites:

Reduced builders' exposure to hazardous substances during installation.

Certified as Biosoluble and non-carcinogenic.

Easy to fabricate and install without the use of heavy and noisy tools.

Improved Resource Circularity:

Reduced use of non-renewable resources by using a minimum 70% of recycled content.

Free of non-essential colour additives.

100% Recyclable packaging.

Improved Health and Wellbeing Indoors:

Improved indoor air quality

- For internal duct linear, the air stream will not erode or release fibers into the air under normal operating conditions.

Fire Safety: Reaction to Fire:

- Adhere to SANS 53501-1 and be certified as non-combustible (Minimum A2 rating). The product will not aid the spread of fire or contribute to smoke production.

Isover Products in the futuRE Range:

Isover Cavitylite®

As part of this innovative range, Isover stands as a trusted partner in building a more sustainable future for Africa, maintaining exceptional performance, at the right cost. With the futuRE Range we're ensuring that it's easy to choose better and build better.
