

## Key facts

- Lightweight and easy to handle
- Exceptional acoustic properties
- Good thermal resistance values
- Safe application and use
- Offers improved light reflection
- Suitable for use in areas of high relative humidity (up to 95% RH).

## Marketing description

Soundlite® ceiling tiles are manufactured from non-combustible inorganic Glasswool and bonded with an inert thermosetting resin binder. A decorative vinyl facing is available in Coral, which provides a durable finish.

## Packaging
